

Africa is not the periphery of global education. It is the future. Hilltop was built to make that case.

WHAT MAKES HILLTOP DIFFERENT

- We are **of Africa** — not visiting it. Diaspora insight means cultural fluency and authentic access few firms can match.
- Programs are **deliverable-based** — students leave with real work products, not just journal entries.
- Local partners receive usable outcomes. We don't do drop-ins.
- We co-create curricula. End-to-end design through on-the-ground execution.
- Formal MOU with the Ghana TVET Service — government-level access and credibility.

WHAT'S LIVE RIGHT NOW — SUMMER 2026

- **Ghana Track** — Entrepreneurship, private-sector growth, community innovation. West Africa's launchpad.
- **Rwanda Track** — Systems thinking, emerging-market strategy. Students paired with African Leadership University peers.
- Structured, deliverable-based placements. Fully supported by on-ground teams.
- Active university partnerships in place. Spots are limited.

"What does your institution's Africa story look like right now — and is it the one you actually want to be telling?"

— Phil S. Agbeko, CEO, Hilltop Global Group

WHAT YOUR INSTITUTION GAINS

Turnkey Africa Programming

We handle design, logistics, and on-ground delivery. You show up as the strategic partner.

Differentiated Student Outcomes

Deliverable-based placements produce real, resume-relevant results — not glorified field trips.

Credible, Authentic Access

100+ vetted partners. Diaspora-led teams. Government MOUs. The access others can't replicate.

Your Institution's Africa Story

We help you build a compelling, distinctive Africa narrative — one that attracts students and sets you apart.
